AT A GLANCE

16+ years across industry & academia

3 utility patents (2026)

10+ publications & conference papers

Ph.D. in progress · VTU

SKILLS

AI & Machine Learning
Agentic AI · LLMs · Deep Learning · Spatio-Temporal Networks · Reinforcement Learning · NLP · Anomaly Detection · Responsible AI

Software Engineering
Java / J2EE · Python · C++ · Spring Boot · Hibernate · Microservices · SDLC

Data
Python Analytics · MySQL · Oracle · MS SQL Server

Networks & Emerging Tech
IoT QoS Optimisation · Underwater MAC Protocols · Blockchain

DevOps & Tools
Git / GitHub · Jenkins CI/CD · Docker · JIRA

Academic Leadership
Curriculum Design · Outcome-Based Education · FDP Coordination · Industry–Academia Programmes

Bridging production-grade software engineering and frontier AI research — from banking platforms at Infosys and Accenture to Agentic AI in the classroom.

PROFILE

Computer Science educator, AI researcher and former enterprise systems engineer with 8 years building banking and capital-markets software at Infosys and Accenture, and 8 years teaching and researching in engineering academia. Assistant Professor in CSE (Data Science) at DSATM and doctoral researcher under VTU. Holder of 3 utility patents and author of 10+ publications spanning Agentic AI, Large Language Models, spatio-temporal deep learning and cognitive IoT networks. Known for turning research into working systems and for building industry-partnered AI programmes for students and faculty.

ACADEMIC EXPERIENCE

Assistant Professor — CSE (Data Science)
Aug 2024 – Present

Dayananda Sagar Academy of Technology & Management (DSATM)

- Teach and run labs in Data Science, Deep Learning and Agentic AI within an autonomous, VTU-affiliated framework.
- Built and led a flagship 6-month Agentic AI immersion programme for students in partnership with Capabl, alongside institutional Faculty Development Programmes.
- Supervise final-year capstone projects and drive departmental research, including utility patents in machine-assisted automation and IoT systems.

Assistant Professor — CSE
Oct 2023 – Jul 2024

City Engineering College

- Taught core computing courses and supervised applied machine-learning student projects.
- Coordinated departmental technical workshops and student mentoring.

Assistant Professor — CSE
Oct 2021 – Oct 2023

T. John Institute of Technology

- Taught object-oriented programming, data structures and web/cloud architectures.
- Published research evaluating OpenAI Codex on real-world coding and deep-learning credit-card fraud detection.

Lecturer — Computer Science
2018 – 2021

Navya PU College & Janaseva PU College

- Taught pre-university programming, algorithms and computational logic.

INDUSTRY EXPERIENCE

Senior Analyst — Murex Solutions Factory
Feb 2014 – Aug 2017

Accenture

- Developed scalable enterprise modules in Java/J2EE and Spring with relational databases for international capital-markets clients.
- Worked across global agile teams through the full SDLC — JIRA-driven triage, automated builds and release integration.

Senior Systems Engineer · Systems Engineer — Finacle
Jul 2009 – Jan 2014

Infosys

- Built and enhanced Finacle CRM and the Finacle universal banking platform used by banks worldwide.
- Refactored backend services, tuned SQL and transaction-processing paths, and owned system-integration testing and deployments.

EDUCATION

Ph.D., Computer Science & Engineering
DSATM — Visvesvaraya Technological University
Pursuing · enrolled 2023

M.Tech, Computer Science & Engineering
K.S. Institute of Technology — VTU
2021 · CGPA 8.5

B.E., Computer Science & Engineering
UVCE — Bangalore University
2009

CERTIFICATIONS & FDPS

Deep Learning — Elite
NPTEL · 2025

Blockchain Technology
NPTEL · 2025

Data Analytics with Python
NPTEL · 2024

The Science Behind Branding
IISc Bangalore · 2025

FDP: Machine Learning & NLP
Infosys Springboard · 2025

FDP: Cyber Security
AICTE · VTU · 2023

FDP: Amazon Web Services
AICTE · 2022

WRITING & MEDIA

- The Ghost in the Feed: Inside the First AI Civilization
- Thermodynamic Computing: Extropic's Chip and the Path to Efficient AI
- The Patent Paradox: AI and the Future of Intellectual Property

More essays on Substack and AI explainers on the **Echoes of AI** YouTube channel.

PATENTS

01 A Bulk Silkworm Cocoon Inspection and Assisted Sorting Machine Using Shallow-Layer Conveyor Spreading

02 Adaptive Quality of Service Management System for Heterogeneous Internet of Things Networks

03 Ethical and Responsible AI: Bias Mitigation and Fairness in Machine Learning Models
